

PRICING BULLETIN

May 7, 2021

Dear Marlite Customers,

This pricing bulletin is an addendum to the April 21st bulletin announcing a 5% increase on Standard FRP Panels. Due to additional and accelerated raw material increases over the last two weeks, we have no choice but to adjust to a higher percentage while keeping the same effective date.

- Standard FRP Panels 10%
 - Class "A", Class "C", Smooth & Textured

The new prices are effective Monday May 17, 2021. Existing prices are effective on all orders placed on or before Friday May 14, 2021 and shipped within normal lead times.

Please note that this price increase does not apply to Marlite value-added panels – such as Symmetrix™, Symmetrix™ SmartSeam, Artizan™ and Induro™ FRP.

Also, we are maintaining current prices on adhesives, although availability of Marlite Brand C551 FRP Adhesive continues to be limited. Raw materials and chemicals required to manufacture adhesives are beginning to flow again, but the supply stream is expected to be compromised through August.

These market conditions are unprecedented and, frankly, incredible as we all look forward to experiencing normalcy. Marlite is doing our best to maximize our product inventories and maintain reasonable lead times. We thank you for your business and look forward to continuing to serve you.

Sincerely,

Greg Triplett
Marlite
